Dear Custom Processing Customer,

Maplewood Meats would like to thank you for your loyalty and patronage over the past thirty-five years. What began as a small meat market has grown to an entity providing full service retail, custom and wild game processing operations. Our growth is a direct result from your continued support and devotion to our business. In addition to growth, together we have experienced changes and challenges to providing a custom fabrication service. The residential development surrounding our harvesting facility and maintaining a skilled labor force have confronted our day to day harvesting operations. Therefore, it is with our deepest empathy to inform you of our discontinuation of Maplewood Meats' custom beef and pork processing, effective May 1, 2019.

Continuation of Maplewood Meats' retail and wild game processing operations will remain.

In order to help with this transition, Maplewood will keep all cutting records on file until May 1, 2019 for you and your customers. If there is any way we can assist you further in this transition please let us know.

Once again, we thank you for your business and friendship over the years. We greatly look forward to continuing to provide our products and services through our retail and wild game operations.

Respectfully,

The Van Hemelryk Family
